

SIVULEMATHUBA ENGINEERING AND CONSTRUCTION

COMPANY PROFILE

ABOUT US

Sivulemathuba Engineering and Construction is multi-disciplinary construction company anchored in Sasolburg North West. Established in 2014. SVM Engineering specialises in labour outsourcing, rubber and wear resistance Linings, Fabrication and HDPE Piping for Mining Industry, Supply and Delivery. Mineral processing, power industry and general construction industry.

MISSION

Our motor: Make us part of your solution. Baked by forward looking research. Development and market development. All of our dynamic activities are based on QTQ quality products, technical support and quick delivery. Respect: interact with our staff, clients and supplies with honest and loyalty

OBJECTIVES

To provide clients with a 24/7 one stop solution shop. Offering competitive pricing, from concept planning through to completion, using a highly skilled professional team working together, using common sense and practical experience.

OUR GOALS

1. To provide quality workmanship.
2. To deliver a quality finished product
3. Never to compromise in our workmanship or on safety or quality.
4. To satisfy our clients to the best of our ability.
5. To complete for the job based on quality and Performance.
6. To be recommended by our clients to others.
7. To be paid for our jobs.

HDPE (HIGH DENSITY POLYETHYLENE)

SVM supply and install HPDE (High Density polyethylene) as well as all manufacturing of special fittings and manifolds. We are fully mobile and on-site work on all piping and installation. We have machinery to do: welding from 40mm to 250mm. HPDE pipes has a variety of applications in mining, industrial, agriculture and municipality. HPDE are used in chemical waste and slurry applications, it has a lot of features such as great flexibility that translate to ease off installation and less joints, long length of up to 100meters, UV resistant, several jointing methods, high abrasive resistant, low mass, smooth bore, corrosion resistant, compatibility with other material

VALUES

1. We are proud of our place of business.
2. To develop and train our staff.
3. We believe in rewarding our staff based on merit not on race
4. We are committed to our workforce and respects their needs and values
5. To deal with the industry in a just and fair manner.
6. We are an equal opportunity company.
7. Our management team is always open to communicate.
8. The company is aimed providing quality-controlled products, workmanship.

QUALITY

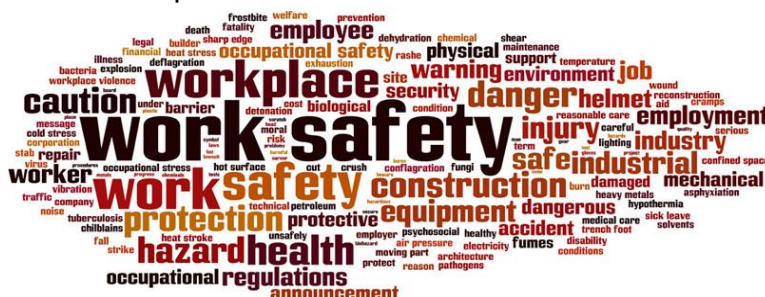

SVM are operating on a standardised quality management system. We implement intense development and training programs in an effort to constantly raise our performance and set standards at the level we consider in keeping with our approach of delivering quality products to our clients.

ENVIRONMENTAL

SVM emphasized environmental awareness in all we do. We are keenly aware of the impact we and our projects may have on the environment. We implement programs and policies to minimize adverse effect. We confirm to all clients and project-specific environment management plans to ensure the impact of our activities or environment is controlled within the guidelines specified.

SAFETY

SVM is committed in creating and maintaining a safe working environment and continuously improving clear and non-negotiable standards and procedures. We proactively foster a safe working environment and enhance the well-being of our employees and that of the communities within our arrears of operational. We are complying with all relevant legislation including the occupational health and Safety Act (OHASA) 1993 and current environment laws and regulations. We make use of an ISO accredited external auditor to ensure compliancy in all areas of operational.
